### BREATHE EASY WITH PRACTICAL, ENERGY-EFFICIENT AIR FILTRATION SOLUTIONS FROM INDUSTRIAL MAID

Industrial Maid manufactures a series of ducted packaged air filtration units designed to keep industrial facilities clean and safe. The M36 series horizontal style units are perfect for hanging applications. These units are designed to collect welding smoke and fumes, grinding dust, oil mist, vapors, odors or soldering fumes through a ducted source capture system.

The units help you protect your valued employees and are a cost effective solution without exhausting air outside your plant. Available in three or four stage filtration configurations, the units will meet your specific application needs. The M36 Filter Packs are available when blower-less filter modules are required.
